STOCK ALERTS

With STOCK ALERTS, you do not have to constantly look at your screen to track price movements of stocks. You can set your STOCK ALERTS per day on the stocks that you want to be alerted when they reach a certain specified price. You can set up to a maximum of 30 stock alert criteria.

All you need to specify are the stock counter and the target price, You can select the method of notification – either via email, through Short Messaging Service (SMS), or web alert. (Please refer to the next section, Section 16 PERSONAL CONFIGURATION to set your email address and mobile number to receive stock alerts.)

Features

- Receive stock alerts via web alert, email and/or SMS.

15.1 Set Stock Alerts

- Go to STOCK ALERTS
- Use the search function  to add your desired counter.
- Enter your desired alert criteria by clicking  Button

The screenshot shows the 'Alert Criteria' interface. It features a table with columns for No., Del, Upd, Mkt, Name, Alert Type, Alert Frequency, and Alert Value. Below the table is an 'Update' button. To the right, an 'Add' dialog box is open, showing a search counter field, an 'Add Counter' button, and a list of alert values (2.7, 0.72, 1.1, 1.95, 2.6). Labels with arrows point to these elements: 'Search Counter' points to the search field, 'Enter Desired Alert Criteria' points to the list of values, 'Add Counter' points to the 'Add Counter' button, and 'Exchange Drop-down Menu' points to the 'SGX' dropdown.
